

PROJECT MANAGEMENT AND CONSULTING

Programme Director: L. Batenko, PhD, Professor, Head of Department

PROGRAMME HIGHLIGHTS:

Objectives:

To form students' competencies on managing economic activity of the existing company or the one that is going to enter global markets with the help of project management and management consulting.

Outcomes:

- Knowledge and skills of managing strategic development of the company;
- Ability to use the mechanisms of ensuring firms' competitiveness on local and international markets;
- Practical skills of managing projects and consulting activity in international teams;
- Practical skills of working in multinational companies, acquired during the internship course in international companies.

Programme strengths:

- leading instructors with the experience of teaching abroad;
- interactive lectures and trainings delivered by the practitioners from the well-known Ukrainian and international companies;
- opportunity to master several disciplines by studying at partner-universities abroad;
- practical experience gained during the internship program at international companies;
- different networking events

Upon graduation students get Master's Diploma in Enterprise Economics.
